Oceanic

Oceanic is a fabric born of the SEAQUAL Initiative designed to combat marine plastic pollution and achieve a waste free environment.

It is created entirely from post-consumer recycled plastic –combining discarded debris in our seas, with bottles thrown away and destined for landfill. One small drop in the mission to clean both the earth and its oceans, this contemporary fabric is a recycled polyester with a purpose.

Diagonal two tone twill weave in 27 shades. Each metre of Oceanic contains the equivalent of 35 plastic bottles.

Use	Heavy Commercial Upholstery
Composition	100% RECPOL incl. 50% SEAQUAL®
Width	140cm
Weight	696g per lineal metre
Abrasion	100,000 Martindale
Light Fastness	4-6
Flammability	AS3837, ISO5660, ASI530.3
Environmental	Certified to the EU Ecolabel Certified to Indoor Advantage™ Gold Oeko-Tex® Certified
