Kyoto

Taking its cue from traditional Japanese textiles, Kyoto echoes the sweeping uniformity of the artisan stitching and resist dyeing techniques seen in age-old apparel with its geo-organic pattern. The striated grid is woven using an innovative printed yarn which creates the fluid and fluctuating broken check, adding an extra design touch and complementing the relaxed aesthetic of the lightly textured fabric.

Designed to work in harmony with Sumi's colour offering, the fabric's deliberately restrained palette allows for simple coordination of the two to create serene interiors as graceful as the fabrics themselves.

Application	Heavy Duty Commercial Upholstery
Composition	90% Wool, 10% Polyamide
Width	138cm minimum
Abrasion Resistance	200,000 Martindale
Light Fastness	5
Weight	469gms per lineal metre
Flammability	AS3837, ISO5660
Environmental	Certified to Indoor Advantage™ Gold
Cleaning	Vacuum regularly. Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo. For deeper cleaning use steam or professionally dry clean.
